**SUBJECT: INTRODUCE AND WAIVE FULL READING OF ORDINANCE
22-02 REGARDING SETTING FEES FOR COST RECOVERY OF
FIRE & LIFE SAFETY ACTIVITIES**

Background

In 1997, the District adopted Ordinance 97-1 Establishing Fire District Fee Schedule. The Board of Directors adopted this ordinance to shift the financial burden from the general public for certain Fire & Life Safety Activities including, but not limited to, providing reports, pyrotechnics, state-mandated inspections, new construction, etc.

In 2015, the District adopted Ordinance 15-1 Setting Fees for Cost Recovery of Fire & Life Safety Activities.

In 2018, the District adopted Ordinance 18-1 Setting Fees for Cost Recovery of Fire & Life Safety Activities.

In 2019, the District adopted Ordinance 19-1 Setting Fees for Cost Recovery of Fire & Life Safety Activities.

In 2020, the District adopted Ordinance 20-1 Setting Fees for Cost Recovery of Fire & Life Safety Activities.

In 2021, the District adopted Ordinance 21-1 Setting Fees for Cost Recovery of Fire & Life Safety Activities.

Fire prevention activities are some of the most cost-effective activities the District is involved in. When fires and other life-threatening incidents can be prevented from occurring, there is a significant savings to the community for direct and indirect costs.

The fees are established in order to obtain cost recovery for those activities outlined within the Fire Code. Per the Health & Safety Code, they do not exceed our actual costs. District staff annually reviews these fees to ensure the amount charged is equal to the amount required to perform the work.

We are presenting Ordinance 22-02 to add additional categories and adjust some of the amounts based on the time required to complete certain tasks.

Recommendation

The purpose of this agenda item is to introduce the ordinance, read the title, and then waive a full reading of Ordinance 22-02. A public hearing and vote will occur at the November 16, 2022 meeting.
